DEBRON  
BRANTON

The Fearless Woman Global Organization was birthed in September of 2016 by Valora Shaw Cole, out of the pain of allowing fear to silence her voice and paralyze her from walking in purpose. She was determined to conquer her fears and help other women do the same.

### Our Vision

We are women of various ages, socio-economic backgrounds and experiences who are determined to be fearless in the face of adversity, so that we may significantly change lives and impact nations globally.

### Our Mission

Our mission is to empower and educate women to know their true value and encourage them to walk in purpose and fulfill destiny, while connecting with other like-minded fearless women all around the world.
